Base Maintenance

[Home](#) > [Printer-friendly PDF](#) > [Base Maintenance](#)

Provide aircraft maintenance and servicing facilities to the Company's fleet or aircraft comprising of twelve Boeing 737NG's and two ATR42-500s and third party customers in a safe and efficient manner.

The Base Maintenance Department is divided into the following Sections:

Aircraft Maintenance

Provide maintenance support to company fleet of aircraft by carrying-out periodic checks, such as 'A' Check on B737NGs and 'C' Check including all major checks on ATR42-500.

Aircraft Components Repair & Support Workshop

Provides facilities to service, repair and overhaul aircraft components/equipments for Oman Air fleet and also third party customers such as The Royal Flight of Oman, Royal Oman Police Air Wing, Royal Guard of Oman and many other ad-hoc operators. The refurbishing and re-equipping of various workshops such as Sheet Metal & Composite Shop, Upholstery Shop, Safety Equipments, Wheels & Brakes, Engines & Propellers, Paint, Avionics and NDT have enhanced the in-house capabilities and provided a better and time saving quality service to meet the new company requirements and to our valuable customers.

Workshops - In-house Capability Under EASA-145/DGCAM-145 Approvals
