Kochi, a major city in the Southern Indian state of Kerala is an attractive city with serene backwaters, lagoons overhung with swaying coconut palms and picturesque islands. A center of Kerala's maritime trade for centuries, it's a fine natural harbour created by the famed underwater Malabar mud-banks. Kochi consists of mainland Ernakulam, the islands of wellington, Bolgatty and Gundu in the harbour, Fort Cochin and Mattanchery on the southern peninsula, and Vypeen Island north of Fort Cochin, all linked by ferry. A must see destination recommended by National Geographic.

Along the harbor, the heart of the city, rows of antediluvian Chinese fishing nets indicate years of strong trade links with China. The unique buildings along the water's edge testify to the erstwhile presence of Dutch and Portuguese colonisers.

The influence of Chinese, Jews, Arabs and Europeans is evident in Kochi and provides a fascinating mix of cultures for every visitor.
