Line Maintenance

[Home](#) > [Printer-friendly PDF](#) > [Line Maintenance](#)

Line Maintenance Department is responsible to:

- Provide effective and efficient management and control of all Oman Air Line Stations to ensure high technical and on time performance and standards in a safe and cost effective manner.
- To monitor and control all outstation operations and to ensure adequate maintenance support is established at outstations.
- To develop certification business to other airlines at outstations where Oman Air self-handling capability exists. Currently, the outstation units are providing B3 certification to Air India Express, Jet airways and other Seasonal Airlines on Adhoc Basis.
