## Oman Air To Fly Daily To Manchester

Date: 15 May 2016

Oman Air, the National Carrier of the Sultanate of Oman, confirms, based on the requests for information received, that it intends to start operating daily flights from its hub in Muscat to Manchester. The new service is scheduled from April 1<sup>st</sup> 2017.

The United Kingdom has always been one of the key markets for Oman Air. London Heathrow has been a flagship route for Oman Air and the carrier's second daily frequency is a clear indication of the strong demand for flights between these two great cities.
