## First Class

Oman Air offers an unmatched level of luxury for its premium class guests including lie-flat seats, direct aisle access and a la carte dining for every guest in First Class. With just six seats within the first class cabin, together with a luxurious lounge area, the guest experience is akin to flying in an exclusive private jet.

The First Class Mini Suite offers the longest lie-flat seat available on any commercial airliner and is set within a massive 87-inch pitch. Furthermore, with a 25.5-inch wide seat, and eight point massage system built in, stowage for hand luggage, dedicated space to hang a coat and a huge 23-inch video monitor, Oman Air's First Class Mini Suite is in a class of its own.
