Hotel Rosa Grand Milan

Category: ★★★★★

As true business hotels, Starhotels are the ideal setting for private or business meetings as well as conventions, congresses and special events in the hotels' various multifunctional areas, well-equipped with the latest technological instruments.

An Italian style based on the love of art, culture, gastronomical tradition and well-being. A constant search for harmony, a passion for details and the pleasure of all that is beautiful attest to Starhotels innate vocation of hospitality.

Located in the heart of Milan's historical district, only a few steps away from the Duomo Cathedral, Via Montenapoleone and the Teatro alla Scala, the hotel ROSA GRAND recently extended its capacity by opening a new aisle and moving its grand entrance in Piazza Fontana. The Rosa Grand has been completely renovated and reopened in November 2009.

The facade is a fine example of tasteful restoration work and the resulting tableau a highly evocative combination of stunning Italian design and architecture. The different spaces give on to each other creating stimulating perspectives and views, enriched by exceptional furnishings bordering between art and design..
