

Oman Air Operates Two Additional Flights To Salalah

Date: 13 Feb 2007

In its endeavour to continuously provide quality service to its valued passengers, Oman Air has scheduled two more frequencies on its Muscat-Salalah-Muscat route on 15/16 Feb 2007.

In this regard, Mr. Abdulrazaq bin Juma Alraisi, Oman Air's Senior Manager Sales said, that the operation of these two extra flights were due to the increasing demand of passenger traffic on Salalah sector based on the Company's statistical information. The first flight is scheduled to depart Muscat on the 15th at 1600hrs and returns from SLL at 18.30. The second flight is planned for departure from Muscat on 16th February at 1000hrs and returns from SLL at 1245. He added that the airline will take all necessary steps to operate additional flights, based on the demand.

Oman Air perceives this move as a commitment to its valued customers and a National obligation to provide quality service. With this in mind the airline routinely increases its frequencies to meet this increasing demand.

It is worth mentioning that Oman Air, prior to mid year 2007, will support Muscat/Salalah sector by a traffic capacity of 3868 seats every week, in addition to the special flight timings planned for Salalah Khareef Festival 2007.
