Economy Class

We have reinvigorated our economy class cabins with fresh, bold tones and modern upholstery—inspired by the colors of the azure coast and golden sunsets across our majestic mountains of Oman.

The 10.6 inches personal monitor can be tilted easily to adjust to your seating position for best view. The ARIA entertainment system is also offered with a wide selection of blockbuster movies, immersive TV shows and interactive games for our Economy Class guests.

Know more

USB port is available in every seat, integrated into the monitor to keep the clutter of wires and cables away. Every triple seat has two power ports, ensuring your personal device will never run out of power.

Dining

Our Economy Class guests get to enjoy a wide array of dishes curated to offer them a taste in theme of the region they are on their way to explore.

Amenities & Comfort

Each guest will receive a collectible range of colorful amenity kits to keep you well rested and refreshed throughout your flight. The bold prints are inspired from Oman's diverse landscape, cultural icons and various international destinations.
