

Award Winning Business Class

The innovative layout is comparable to many First Class cabins in the sky, with direct aisle access, adjustable privacy dividers, and a real bed in the sky without compromising any leg room.

At Oman Air everything is made with our guests in mind, even our intuitive seat control panels are kept clean and simple to use. Our Business Class guests will also have an extensive range of entertainment options through our new ARIA system.

[Know more](#)

The 17 inch personal monitor paired with noise canceling headphones and controlled by the award winning TPMU will keep you engaged throughout your flight. Two USB ports are available in every seat plus laptop power with a fully adjustable personal reading light.
