## Oman Air partners with the Sundus Rotana Hotel to extend its successful stopover program in Oman

Date: 15 September 2019

Oman Air's guests from across the world have enjoyed complimentary stays in luxury hotels in Muscat, thanks to the airline's free stopover offer. The popular program gives guests the opportunity to break their journey and enjoy some of the Sultanate's highlights on their way to their final destination.

And now Oman Air, the national carrier of the Sultanate of Oman, has added a new hotel, the Sundus Rotana Muscat; extended the offer date; and expanded the program's international reach. Now, all Oman Air guests - flying in all classes, to and from any city - can enjoy a free night's stay in the ideally located, top-quality hotel.

Richard Bodin, Senior Vice President of Oman Air Holidays said, "This campaign has been a great success. Not only have we attracted many hundreds of guests to visit the Sultanate to experience the delights of our capital, we have also communicated to the world that Oman is energetically keen to promote tourism and works across the travel industry to pull together innovative and attractive products.

"Adding the Sundus Rotana and being able to extend the offer into the busier winter months is another great step. The hotel has the benefit of being conveniently located just a few kilometers from the airport, yet close to the centre of Muscat. It is a modern, 4-star property with great dining options and leisure facilities. We are delighted to add them to the program".

David Faull, General Manager at the Sundus Rotana added, "We are delighted to be able to offer this

deal to guests of Oman Air and build further on our strong relationship. Muscat is a magical city with unique attractions and culture that make the capital, and our modern hotel, a truly 'must visit' destination".

The Sundus Rotana hotel is a modern hotel designed with guests' comfort in mind. The 215 rooms and suites are spacious, with contemporary furnishings and stylish décor. Modern amenities and the latest technology ensure guests feel at home and several excellent dining options complete the experience. Ideal for corporate and leisure travelers visiting the Sultanate's capital, the property is close to the city's major landmarks, attractions and commercial districts.
